

About Essie

Essie Weingarten, founder and president of Essie Cosmetics Ltd., began her career by developing 12 innovative nail polish shades in 1981, and has since launched a brand that extends to 250,000 salons and spas in 95 counties.

With her chic fashion sense and knack for color, Essie saw a lack of creativity in nail polish. "Your hands make such a statement about who you want to be," she says. "Years ago, the polish choices at the salon didn't reflect that; they were so limiting, so I took a risk and made shades that were new and exciting." Twenty-eight years and over 200 polish shades later, Essie is still committed to the innovation of her brand, releasing new colors every season.

Essie has won awards from countless magazines and was the recipient of the Achiever Award from Cosmetic Executive Women, which honours women who have had a major impact on the industry. She is also regularly featured in publications like *Vogue*, *Allure*, *In Style*, *Harper's Bazaar*, *Vanity Fair*, *Marie Claire*, *Lucky*, *Town & Country*, *Cosmopolitan*, *Modern Bride*, *Brides*, *Glamour*, *ELLE*, *Seventeen*, *Teen Vogue*, and many more.

Our Hand and Foot Technician

Caroline Christer CIBTAC, ITEC, IFR, Cert Ed is the hand and foot therapist at The Hand and Foot Studio. Caroline has significant experience in the beauty industry and offers a range of hand and foot treatments in addition to and to compliment the services offered by Maidenhead Podiatry including luxury manicures and pedicures, acrylic and gel overlays.
